

BIM COLLABORATE PRO ONBOARDING FOR ADMINS

BIM Collaborate Pro is a collaboration solution that connects your teams, data, and workflows to deliver powerful insights. It can be confusing for software admins to get acclimated to new solutions, but as your Autodesk Platinum Partner, we make it our mission to support you through your team's adoption of BIM Collaborate Pro.

During our **FREE** one-hour BIM Collaborate Pro onboarding call, our CADD Care technical expert will introduce your admins to the platform, review how to navigate through the software, and provide a high-level overview of how to start a project in ABC Pro and initiate cloud worksharing on one Revit file.

We recommend that you designate two admins for your BIM Collaborate Pro software, and have both of them attend this onboarding call. Please note, this onboarding focuses on the admin functions within the software; user functions will not be covered.

Book your onboarding call today!

Have questions about your BIM Collaborate Pro onboarding or any of our onboarding programs? Contact our Customer Success team: customer.success@caddmicrosystems.com
