

TD SYNnex

Cyber Range

The TD SYNnex Cyber Range is the first ever cyber range hosted by an IT distributor.

The Cyber Range creates an interactive and immersive environment to **train, demonstrate, and engage** partners and their customers using the best technologies, processes and most advanced techniques in cybersecurity

Training using multiple forms of on-prem, virtual, or hybrid learning sessions

- Incident Response
- Capture the Flag
- Red Team vs Blue Team
- SOC: Threat Hunting
- SOC: A day at the SOC

Demonstration of solutions using the best technology, proven processes, and most advanced techniques

- Access to the most advanced cybersecurity solutions from our vendor partners
- Develop and test solutions across the cybersecurity ecosystem to meet new challenges in the threat landscape

Engagement with customers through an interactive learning experience that promotes security solution sales

Services augment the capabilities of partners by leveraging our professional and managed security services
