How end-to-end consistency, protection, and possibilities tip the scales

hp with **Windows 11**
HP recommends Windows 11 Pro for business

intel vPRO Built for Business
Unrivaled business PC solution

TD SYNNEX *Public Sector* | **DLT**™

The business world is in constant change. People are working from anywhere. Innovations are accelerating. And IT is asked to keep pace. It helps to have a resource that can bring all the pieces together.

That's exactly what HP can do for you.

Windows 11 Pro devices can be deployed up to 25% faster[1]

Everything working seamlessly together

An IT infrastructure built around a comprehensive, unified HP ecosystem is more efficient and cost-effective. It goes beyond a single-manufacturer system by incorporating processing and software solutions from the best business technology companies into every HP device. It also makes everything easier to manage. With HP, you get a single source for building, protecting, and managing a fleet that can support your workforce's ongoing needs.

A wide range of powerful PCs with the right devices to support all your distributed workforce needs

Advanced cameras, audio, and conferencing solutions so even remote workers feel fully connected

Cutting-edge device management with predictive analytics and insights to maximize performance[2,3]

Built-in zero-trust endpoint security protection that starts at the hardware level[4]

Quick moves between apps with Intel vPro®[5] and consistent performance with Windows 11 Pro

hp One partner. More solutions.

Performance that drives productivity

Employees thrive when you equip them to perform at their best anywhere, which means providing the right PCs and peripherals that address their needs.

✓ For some, it's a lightweight, performance laptop with 360 flexibility and the benefits of the Intel vPro® platform

✓ For others, it's the right accessories, including monitors, webcams, microphones, keyboards, and headsets, to build the perfect, productive workspace

✓ For many, it's having a virtual Windows 365 PC they can access remotely from any device

✓ For a select few, it's a data-crunching Z by HP Workstation with three CPUs and loads of cores that takes remote access from any device even further with HP Anyware[6] software

Whatever the demand, the HP ecosystem offers the devices and support for your people's needs, so they can be at their most collaborative, most engaged, and most productive.

55%
of hybrid workers reported having issues with their videoconferencing software and 49% with their collaboration tools.[7]

Built-in protection across every endpoint

You can never be too secure, and HP Wolf Security[4] can provide every HP device in your fleet with zero-trust security with hardware-enforced, full-stack defense against evolving threats.

✓ Automatically protect every endpoint against threats in emails, Word documents, and browser tabs

✓ Guard each device and your network from key malware and phishing threats

✓ Gain the chip-based protection of Intel vPro® along with Windows 11 Pro with its reported 58% drop in security incidents.[1]

66%
of IT leaders see the potential for hybrid workers to be compromised as their greatest security weakness[8]

Solutions that cover your entire team

Don't waste time sourcing devices from one provider and manageability solutions from another. HP delivers global solutions across computer, document, and conferencing needs, all designed to work seamlessly together and help advance your business priorities. HP Workforce Solutions offers insights-led provisioning services, device management solutions, and technical consulting to drive brilliant innovations from wherever you and your employees need to be.

✓ Provisioning services deliver ready-to-go, preconfigured devices right to your people

✓ Telemetry-driven insights help predict and resolve problems proactively

✓ Manageability services help keep your devices updated, secure, and productive, plus they help reduce the burden on stretched IT teams

✓ End-of-lifecycle device disposal embraces high security and environmental standards
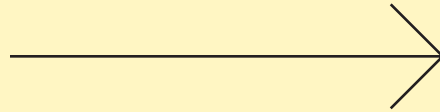

Go further, easier with HP

With HP, you can drive savings and efficiencies on a mass scale with a single source that can supply and support thousands of devices across multiple locations. You'll have devices that seamlessly deliver exceptional manageability and performance with leading technology from partners like Intel and vital software like Windows 11 Pro. Your people will have the tools to succeed wherever they work, whatever their role. With HP on your side, you'll be simplifying the path to success now and into the future.

hp with **Windows 11** | Intel vPRO Built for Business

1 Commissioned study delivered by Forrester Consulting, "The Total Economic Impact™ of Windows 11 Pro Devices," December 2022, https://query.prod.cms.rt.microsoft.com/cms/api/am/binary/RE4Vrvx

2 HP Services are sold separately and are governed by the applicable HP terms and conditions of service provided or indicated to Customer at the time of purchase. Customer may have additional statutory rights according to applicable local laws, and such rights are not in any way affected by the HP terms and conditions of service or the HP Limited Warranty provided with your HP Product.

3 Predictive analytics requires a telemetry and analytics app that provides critical data around devices and applications and is not sold as a standalone service. HP follows stringent GDPR privacy regulations and is ISO27001, ISO27701, ISO27017, and SOC2 Type2 certified for Information Security. Internet access is required. For full system requirements, please visit http://www.hpdaas.com/requirements. Purchase of any HP app-enabled service necessitates enabling software to run on each device. HP Services Scan is provided thru Windows Update and will check entitlement on each hardware device to determine if an HP app-enabled service has been purchased and will download applicable software automatically. To disable this feature, please follow the instructions at http://www.hpdaas.com/requirements

4 HP Wolf Security for Business requires Windows 10 or 11 Pro and higher, includes various HP security features, and is available on HP Pro, Elite, RPOS, and Workstation products. See product details for included security features.

5 Intel vPro® requires Windows 10 Pro 64 bit or higher, a vPro supported processor, vPro enabled chipset, vPro enabled wired LAN and/or Wi-Fi 6E WLAN and TPM 2.0. Some functionality requires additional 3rd party software in order to run. Features of vPro® Essentials and Enterprise vary. See http://intel.com/vpro

6 Network access required. HP Anyware software and licensing are available through a 1- or 3-year subscription. Renewal is required after the subscription term. HP Anyware subscriptions are based on the number of concurrent PCoIP connections used (pay for the number of host connections, not the software) with a minimum order quantity of 5. For a limited time, an HP Anyware Professional subscription also includes access and support for ZCentral Remote Boost and ZCentral Connect and is available for purchase through an HP reseller or contact Sales at hp.com/Anyware. ZCentral Remote Boost Sender requires Windows 10 and 11, RHEL/CentOS (7 or 8), or UBUNTU 18.04 or 20.04 LTS operating systems. macOS (10.14 or newer) operating system and ThinPro 7.2 are only supported on the receiver side. ZCentral Connect requires Windows (10 or 11) or Windows Server (2016 or 2019) operating system, Microsoft Active Directory, and Intel® Active Management Technology for select features. For system requirements and to install HP Anyware and Anyware Manager, refer to the Admin Guides at: https://docs.teradici.com/find/product/hp-anyware
