&gt; UNIFIED APPROACH TO ADOPTING AI AND FM IN THE 2025 WORKPLACE

# Unified Approach to Adopting AI and FM in the 2025 Workplace

Join our on-demand webinar with FMJ (Facilities Management Journal) to explore the transformative impact of AI and cross-platform data analytics in the 2025 workplace. As more employers focus on boosting office attendance, the integration of advanced technologies is becoming essential for effective facility management (FM). This webinar brings together industry leaders to discuss the challenges and opportunities of adopting AI in FM, providing you with practical strategies to enhance your workplace.

#### What You'll Learn:

- **Unified Workplace Strategy:** Understand how to align data sets with business objectives to create a cohesive and efficient FM approach.
- **Quick Wins:** Identify immediate actions to build trust and demonstrate the value of AI in facility management.
- **Skills Development:** Address the skills gap through targeted training and development programs.
- **Technology Partnerships:** Discover how to select the right technology partners and stakeholders to support your FM initiatives.

Eptura

- Heather Nicholson: UK head of FM for Seeker UK
- Wayne Young: Head of FM for DB Cargo

Don't miss this opportunity to lead the way in the 2025 workplace. Register for our on-demand webinar and start transforming your facility management today.
